achieve the dual goals of urban development and biodiversity conservation. Key design elements include revitalisation of existing river channels and creation of riverside open spaces, nurturing a harmonious natural environment that enhances biodiversity and habitat connectivity. Additionally, by implementing the “Single Site, Multiple Use” concept, the development features floodable open spaces and multifunctional flood storage ponds within regional parks. These not only strengthen the drainage capacity of surrounding rural areas but also provide the community with versatile public spaces. The designs enhance the community’s climate and ecological resilience, promote efficient land use, and ultimately create an environment that is ideal for living and travelling.

Urban-Rural Integration

Urban-rural integration is one of the key development goals of the Northern Metropolis. As one of its four core zones, HSK/HT NDA not only drives urban growth but also places strong emphasis on enhancing the rural environment and upgrading countryside facilities. It actively conserves and revitalises rural resources, while respecting traditional village lifestyles and preserving local cultural identity. The planning approach focuses on softening the urban-rural interface by retaining heritage and creating spaces for traditional activities such as the Ha Tsuen Tai Ping Ching Chiu held once a decade and Chinese Opera, as well as the Tuen Mun Tin Hau Festival, allowing the blending of old and new to become a bridge between the past and the future. The entire development process embraces co-creation, fostering cross-sector collaboration among the community, government, and stakeholders to build a culturally rich and liveable environment that strengthens residents’ sense of identity and belonging.

Smart and Green Connectivity

HSK/HT NDA is built around an efficient and convenient transportation network that links multiple development centres within the area, as well as the Yuen Long South New Development Area. It integrates seamlessly with major public transport interchanges, providing nearby rural villages with easy access to public transit.

升社區的氣候及生態韌性，並促進土地資源的高效運用，為市民締造宜居宜遊的生活環境。

城鄉共融社區 - 城鄉共融是北部都會區的重要發展目標。洪水橋 / 厦村新發展區作為四大核心區域之一，在推動城市建設的同時，亦重視美化鄉村環境及提升鄉郊設施，並積極保育及活化鄉郊資源，尊重原有鄉村生活方式，延續地方文化特色。規劃上著重緩和城鄉交界的轉變，保留歷史痕跡並提供空間進行傳統活動，如厦村鄉十年一度的太平清醮和粵劇神功戲，以及屯門天后寶誕等，讓新舊交融成為連結過去與未來的橋樑。整個發展過程強調「共創」精神，透過跨界別合作，凝聚社區、政府及持份者力量，共建具人文氣息的宜居社區，提升居民的認同感與歸屬感。

智慧綠色連繫 - 洪水橋 / 厦村新發展區以高效、便捷的交通網絡為核心，串連區內多個發展中心及元朗南發展項目，並與主要公共運輸交匯處緊密連接，為鄰近鄉村帶來公共交通便利。市民可輕鬆轉乘屯馬線、輕鐵等多種公共交通工具並配合區內完善單車徑網絡，實現區內外無縫出行體驗。區內亦規劃設置步行街，結合人本設計與社區空間，促進商業活動與社區互動。整體規劃積極推廣綠色運輸模式，並引入實時交通燈調節系統，以提升交通效率、減少擠塞及碳排放，打造宜行、宜居、可持續的城市環境。

活力繁榮匯聚 - 洪水橋 / 厦村新發展區憑藉地理優勢及未來跨境鐵路連接便利，致力拓展金融、財富管理、法律等高端專業服務，打造區內商業活動的核心樞紐。規劃中預留土地發展現代物流圈，積極引入包括機械人技術在內的創新物流系統，以促進產業升級和智慧應用。透過完善的產業配套與空間規劃，新發展區將吸引海外企業與優秀人才匯聚，激發創意與經濟活力。整體規劃不僅帶動區內及鄰近新市鎮經濟繁榮，更融合都市節奏與生活品質，打造宜居宜業的現代城市環境。

Residents can effortlessly transfer across the Tuen Ma Line, Light Rail, and other transit modes, complemented by a well-developed network of cycling paths to support smooth travel inside and outside the district. The planning also includes pedestrian-friendly streets that integrate people-centric design with community spaces, encouraging commercial activity and social interaction. The NDA actively promotes green mobility and introduces a real-time adaptive traffic signal system to improve traffic flow, reduce congestion, and lower carbon emissions, contributing to a sustainable environment that is ideal for living and connecting.

Dynamic and Prosperous Hub

Leveraging its strategic location and the convenience of future cross-border rail link connections, HSK/HT NDA is committed to expanding high-end professional services such as finance, wealth management, and legal sectors, establishing a key commercial hub within the district. The plan also reserved land for the development of a modern logistic cluster, introducing innovative logistics systems including robotic technologies to support industry upgrading and smart applications. With comprehensive industrial support and spatial planning, the NDA attracts overseas enterprises and talents, fostering innovation and economic vitality. The overall development not only stimulates prosperity within the area and neighbouring new towns, but also harmonises urban dynamism with quality of life, striving to build a modern city environment that is ideal for living and working.
